

SS SCS SB 767 -- HEALTH-RELATED AILMENT REGISTRY

This bill allows any county, which includes the City of St. Louis, to create a voluntary registry of individuals with health-related ailments to assist these individuals in case of a disaster or emergency. A name, address, or any other personal identifying information used in a registry cannot be deemed a public record under the Open Meetings and Records Law, commonly known as the Sunshine Law. If a disaster or emergency occurs that involves any person listed on the registry, an incident report must be made public.
